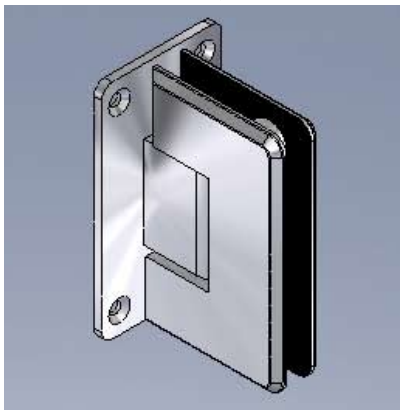
Celesta **Hinges**

Wall Mount Hinge



Wall Mount Pivot Hinge

Top or Bottom Mount Hinge

Hinge Selection Guidelines

Hinge Series	Qty.	Glass Thickness	Max. Door Panel Width	Max. Door Panel Weight
Wall Mount	2	3/8” or 1/2”	28”	80 lbs.
Wall Mount	3*	3/8” or 1/2”	36”	120 lbs.
Pivot	2	3/8”	31”	100 lbs.
Pivot	2	1/2”	36”	145 lbs.

To calculate glass weight, multiply width x height and divide by 144, then multiply by either 5 lbs. (3/8” glass) or 6.5 lbs. (1/2” glass).

Height restrictions will exist due to weight capacity of the hinge. Please contact Celesta Customer Service, 800-45-BASCO (800-452-2726) for height capabilities for your application.
**Add $150.00 to list price for 3rd hinge.*

Answers To

Frequently **A**sked **Q**uestions

1. The **maximum width of a stationary panel** that is not either secured by a header or mounted from floor to ceiling is 30”.
2. When using **transom clamps**, maximum transom panel size is 30” W x 12” H. Any fixed panels must be at 180° or 135° to the transom. Walls must be 90° to the transom. With Prima transom hinges, maximum transom panel size is 36” W x 24” H. Any fixed panels must be at 180° to the transom. Walls must be 90° to the transom.
3. The **maximum width and height** for each glass type is as follows:
   - > Clear .....86” W, 115” H
   - > Rain.....58” W, 80” H
   - > Venetian .....58” W, 80” H
   - > Cobblestone.....58” W, 80” H
   - > Arctic Frost.....58” W, 80” H
   - > Symmetry.....58” W, 80” H
   - > Silk .....58” W, 115” H
4. The **minimum panel width** is 3” for clear glass, 5” for all other patterns. The **minimum panel height** is 17”.
5. A **header must be used** if:
   a. glass to glass hinges are incorporated and the panel is not mounted from floor to ceiling.
   b. a fixed panel is not mounted from floor to ceiling and it exceeds a 30” centerline width.
6. **Backing material (wall reinforcement) is required at the installation position for each hinge.**
7. **Fiberglass** and **acrylic bases** or modules can only accommodate 1/4” glass, due to a lack of backing material or reinforcement. Clear 1/4” glass is $53.68/sq. ft (list). To figure square footage price, multiply Length x Width and divide by 144, then multiply by $53.68. (L x W / 144) x $53.68 = base price. Adders for color, glass, notches, etc. are found on each model’s page. Contact Customer Service for additional information.
8. To **calculate glass weight**, multiply width x height and divide by 144, then multiply by either 5 lbs. (3/8” glass) or 6.5 lbs. (1/2” glass).
9. For **minimum notched panel requirements** see page 20.

Celesta Warranty

Each BASCO Shower Enclosure is a custom design and undergoes several meticulous manual and automated quality control procedures. Basco offers a limited lifetime warranty against manufacturers defects.

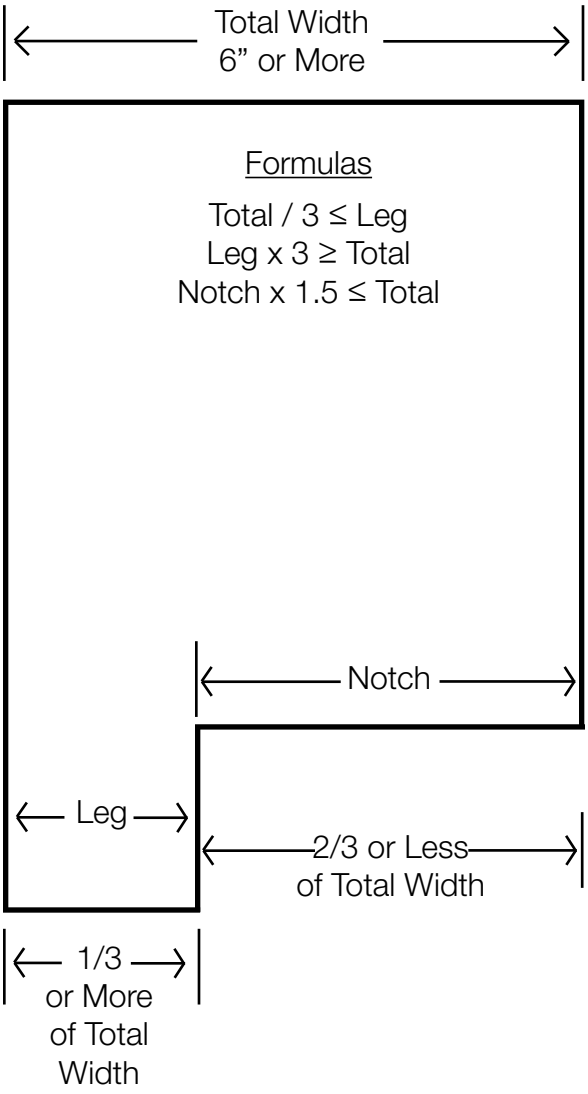
Glass: All Glass is tempered and meets or exceeds all Federal Laws and specifications. All outside glass edges are polished.

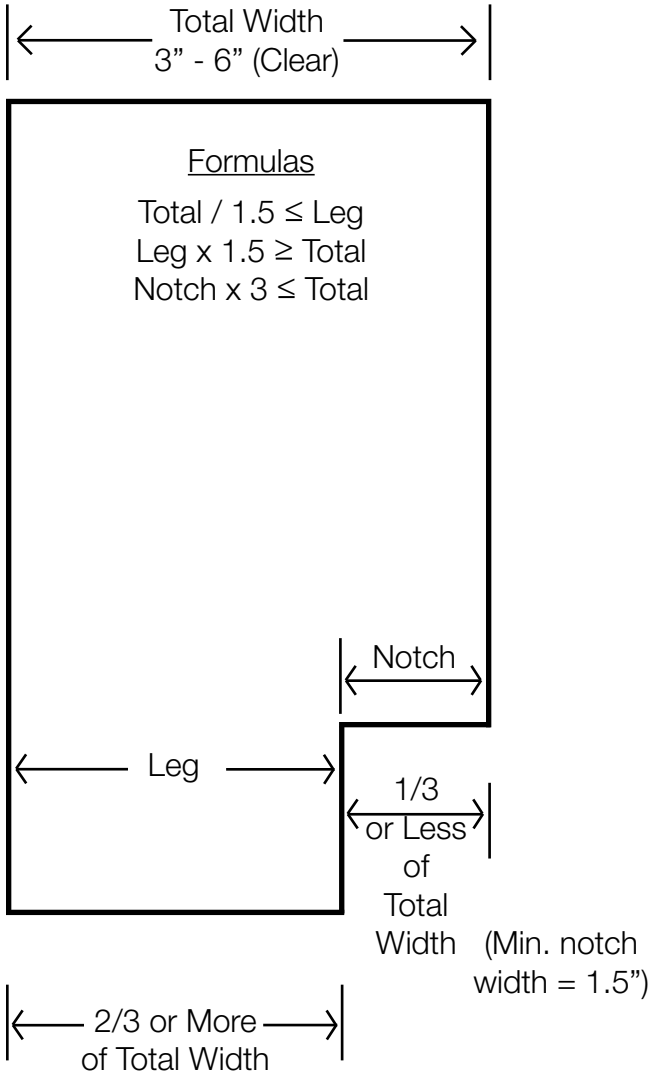
Hinges and Hardware: Our hinges and hardware are made of the finest brass materials.

Vinyl Gasketing: Our clientele require that each shower expresses clean, uncluttered lines. All door openings are precision fitted, but some water may escape. With proper positioning of the showerhead the problem is usually eliminated. Vinyl gasketing is included with each door, but installation of this vinyl is optional.

Avoid using abrasives or harsh chemicals on the glass or the hardware. The usage of these materials will void the warranty. Celesta Luxury Shower Enclosures are certain to give you many years of enjoyment.

Notch Panel Guidelines





≤ Less Than or Equal To
≥ Greater Than or Equal To

Shower Enclosure Drawing Area. *Please provide all hinge sides, angles and out-of-plumb / out-of-level conditions to 1/16". Quote will be based on dimensions shown. Please request a re-quote if any dimensions change.* Please make copies of these pages as needed for future use.
