

HiPURformer Advanced Bonding System

Franklin International

The HiPURformer Advanced Bonding System offers three adhesives, all of which are waterproof, provide strong, permanent bonds and reduce the need for clamping or bracing. For many applications, the systems can eliminate the use of nails or staples, reducing time and money in filling, sanding and staining repair marks.

Titebond WW30 HiPURformer Polyurethane Hot Melt Adhesive 1301
Titebond WW30 is the adhesive component of this unique and innovative system. This adhesive is specifically designed for wood and wood-composite applications, this adhesive offers a low viscosity and a faster set time (30 seconds), making it ideal for more rapid operations. With a fast set time, it eliminates the need for nails, staples, screws and other mechanical fasteners (in most applications). Coverage is approximately 71 linear feet of 1/16" (OD bead) per 50 gram cartridge.

Titebond WW60 HiPURformer Polyurethane Hot Melt Adhesive 1311
Titebond WW60 is the adhesive component of this unique and innovative system. This thicker formulation is designed for wood and wood-composite projects and is ideal for applications where gap filling properties are needed. Ideal for assembly applications where longer open times (60 seconds) are desired. With a fast set time, it eliminates the need for nails, staples, screws and other mechanical fasteners (in most applications). Coverage is approximately 71 linear feet of 1/16" (OD bead) per 50 gram cartridge.

Titebond MP75 HiPURformer Polyurethane Hot Melt Adhesive 1321
Titebond MP75 is the adhesive component of this unique and innovative system. This special adhesive is extremely versatile and designed for use on a wide variety of materials. It is a multi-purpose formula designed to bond most common materials, including wood, melamine, ceramics, metal, most plastics, marble, glass, FRP, brick and more. Provides an extended set time (75 seconds). With a fast set time, it eliminates the need for nails, staples, screws and other mechanical fasteners (in most applications). Coverage is approximately 71 linear feet of 1/16" (OD bead) per 50 gram cartridge.

Titebond HiPURformer Polyurethane Hot Melt Adhesive Kit 1341
The Titebond HiPURformer Complete Kit includes one each of WW30 (1301), WW60 (1311) and MP75 (1321) hot melt adhesive cartridges. Also included is the patented, innovative adhesive applicator from German manufacturer Steinel. This quality applicator has an extended warranty and is the ideal delivery system for HiPURformer adhesives. It is cordless, lightweight and extremely easy to use. This kit also includes a sturdy carrying case for the applicator and adhesives.
