Swanstone Shower Floors

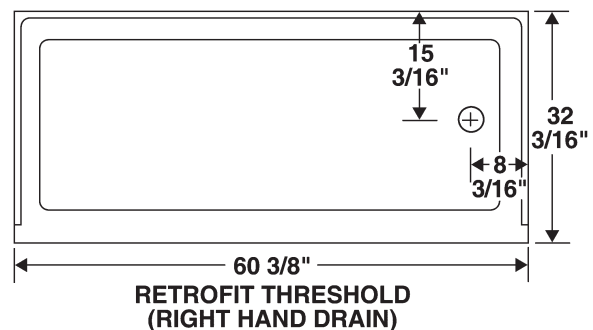

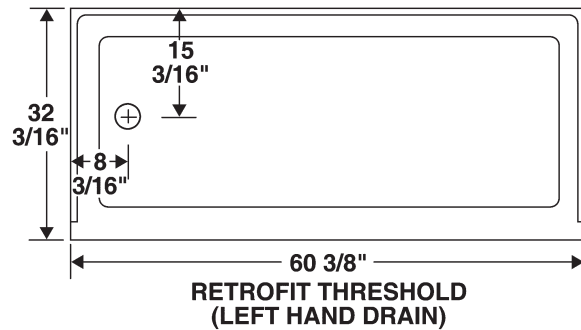

Swanstone shower floors come in standard styles, sizes and colors. This non-porous, solid surface material is up to five times stronger than most other solid surface materials. Shower floors feature integral reinforcements, mold- and mildew-resistance, color molded throughout and a slip-resistant, large-pebble surface for safety and easy cleaning.

SS3442, SS4242 and SSDTF are available in White (01) only.

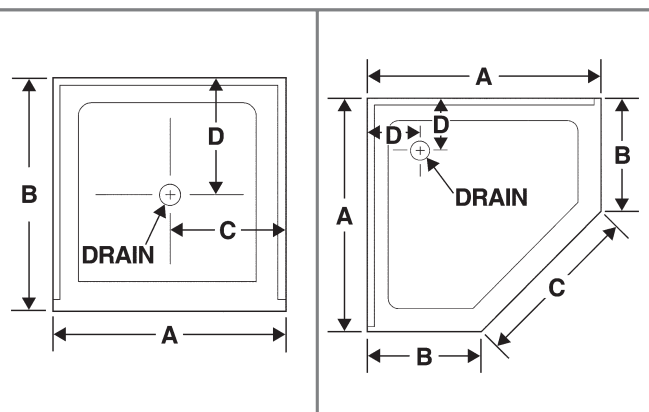

Retrofit shower floors SR3260L and SR3260R, SS3248, SS3260, SS3460 and SS36NEO are available in White (01), Tahiti White (11), Bisque (18), Arctic Granite (35), Bone (37), Bermuda Sand (40), Almond Galaxy (46), Cornflower (63), Tahiti Desert (A0), Tahiti Sand (A1) and Tahiti Ivory (A9).

SS3232, SS3448, SS3636 and SS38NEO are available in all of the above, PLUS Gray Granite (42), Rose Granite (43), Country Blue Granite (44), Mocha Galaxy (45) and Tahiti Evergreen (A7).

Other Swanstone colors are available by special order.

Veritek Shower Floors

Retrofit Shower Floors RF3260 FR3265

The retrofit shower system allows you to replace your old tub with a beautiful new shower area, and Swan makes it easy. You do not need to install new plumbing - the drain at either end matches standard bathtubs (30" x 60").

As part of Swan's shower system, matching floors are offered in revolutionary fiberglass molding compound FMC-2000 for long-lasting durability. Shower floors are non-porous and mildew resistant and feature a slip-resistant surface for safety and a ribbed bottom for strength and durability. Retrofit shower floors available in White. Bone is available by special order. *Swan shower floors can also be used with ceramic tile installations.*

Shower Floors

Swan's revolutionary fiberglass molding compound FMC-2000 provides a lighter, smoother and up to three times stronger floor than an ordinary molded stone type shower floor. The development of FMC-2000 technology has enabled Swan to offer the highest strength pre-cast shower floor on the market today. When the fiberglass molding compound is placed in Swan's precision engineered production tooling, the outcome is a product designed with superior strength and contemporary styling.

Kits include one code approved compression molded fiberglass floor, complete installation instructions plus one code approved self-caulking drain or pressed in metal drain. Available in White (01), Bisque (18) and Bone (37), except where noted.
