PressRite Built-In Ironing Centers

Standard Iron Center AVD45B

Ironing Board:

- All metal construction - durable, provides years of long standing use
- Ventilated metal board - resistant to moisture and cools quickly

Storage:

- Hot iron storage shelf - deep and tall to accommodate today's larger sized irons
- Additional storage shelf - ability to store spray bottles, starch, other items in cabinet

Electrical:

- Silent timer - choose when power is supplied, no "ticking" noise
- Pilot light - since timer is silent, shows when power is "on"
- Built-in light - provides functional lighting behind a shielded cover (40 watt bulb recommended, but not included)
- Safety switch/auto shutoff - electric supply is turned off when door is closed
- UL and cUL Approved & Listed - unit meets electrical safety standards in US and Canada

Wall Installation Choices:

- Recess mount - provides stream-lined, "built-in" appearance
- Surface mount (collar required) - easy to mount, no hole to cut in wall (collar sold separately)

Hardware:

- Magnetic catch - keeps door closed and neatly in place
- Door hinges (for left or right mounting) - provides flexibility for your specific installation

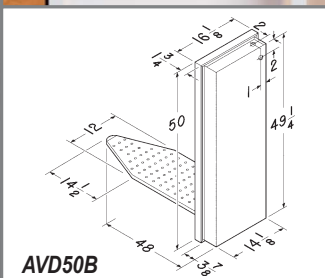

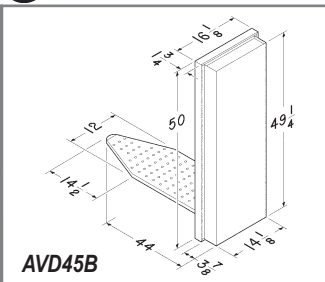

Door Options:

- PressRite™ Ironing Centers are sold without doors allowing you to choose a PressRite™ custom door (sold separately), or create a door to match your woodwork

Deluxe Iron Center AVD50B

In addition to the Standard Iron Center features above, the Deluxe Iron Center has:

- Three height settings - adjust board height for optimum ironing comfort
- 180 degree swivel - unit can fit in tight corners, provides additional ergonomics
