

Piazza

Piazza with its subtle fractured pattern celebrates the unpretentious beauty found in the simplicity of nature. The earthy structure combined with a fresh palette is a perfect design for the Indoors-Out, Outdoors-In theme in interior design. Offered in four time-honored colors that are spirited and intriguing.

All Piazza high pressure laminates feature our exclusive Armored Protection™ Surface to keep them looking new longer.

T Textured finish, featuring exclusive Armored Protection™ surface.

Hallmark Series

Inspired by the basic elements of nature, our Hallmark series radiates color and texture as though lit from within. All Hallmark laminates feature our exclusive Armored Protection™ Surface to keep them looking new longer. In addition, all Hallmark laminates meet all NEMA standards for horizontal use.

Additional Hallmark items are identified in the Woodgrains section of the Product Catalog.

Hallmark Textures are available in all HGP (HF-4) and VGP (VF-3) Nevamar sizes and all additional cut sizes.

CM Ceramic finish. These items do not have Armored Protection™ surface.

T Textured finish, featuring exclusive Armored Protection™ surface.

Woodgrains

With superior pattern clarity and fidelity, this collection of fine wood veneers provides the look and feel of authentic wood without the budget and environmental concerns of the real thing. Textured Finish is standard on Woodgrains with most items protected by our exclusive Armored Protection™ Surface to keep them looking new longer. Several items are also stocked in other finish options.

A select group of woodgrains is included in the Hallmark series of patterns. This group is inspired by the basic elements of nature and radiates color and texture as though lit from within. Please visit the Hallmark section of our Product Catalog to view other patterns in this collection.

Finishes T, PV, V, E and N are available in all Nevamar sizes and all additional cut sizes. Hallmark Textures are available in all Nevamar sizes and all additional cut sizes.

Specialty Laminates

Nevamar offers a complete line of laminate products engineered to meet the demanding needs of specialized applications, while providing the beauty you want in your designs. All Specialty Laminates items are special order unless otherwise noted.

ChemArmor Laminates

Finally, a chemical resistant laminate with incredible abrasion resistance. It took the innovation leader to make a chemical resistant laminate this tough. Tests prove ChemArmor® laminate from Nevamar has outstanding chemical resistance, plus significantly better NEMA wear value than competitive laminates. ChemArmor® provides resistance to acids/bases, solvents, stains, indicators and general reagents. It all adds up to laminates that keep looking new longer in even the harshest environments. It's ideal for interior horizontal surfaces in laboratories, healthcare facilities, schools, photo processing, forensic labs and more. You can specify ChemArmor anywhere with confidence.

Easier to fabricate. ChemArmor is simple to work with. Its strength makes it easy to fabricate without breaking or splintering, so there's less waste.

Designed for your toughest customers. Only ChemArmor offers chemical resistance with outstanding abrasion resistance. It has outstanding heat and impact resistance, too. In fact, it's the toughest laminate available today. ChemArmor has no equal. Accept no substitutes.

ChemArmor is stocked in the most often requested Black and White and is available on a made-to-order basis in most designs (excluding Hallmark Series and Crystal Finish) in the Nevamar stockline (10 sheet minimum). General purpose HGL (H-4 non-forming, product code 734) ChemArmor is available in 30" x 144", 48" x 96" and 60" x 144". Call to see if Nevamar is able to manufacture in specific colors or patterns.

Request a sample for visual approval, customer sign-off is required prior to order acceptance. Fire retardant ChemArmor is available made-to-order, inquire with customer service.

Please view the ChemArmor Specification Information for chemical and stain resistance information and abrasion resistance test values.

The chemical resistant process used on ChemArmor laminates may cause a slight color shift when compared to the same item in non-chemical grade Nevamar laminates. This is not a defect. However, butt matches between ChemArmor and standard Nevamar laminates are not recommended.

CA ChemArmor finish.

Custom Print

Customize the interior space with a design of your own in cost effective, durable Nevamar laminate with exclusive Armored Protection™ Surface. Available in Textured Finish in standard widths and lengths with a five sheet minimum. Contact LDS&S for details and a Custom Print Project Profile Sheet.

Paparazzi! Holographic Surfacing

Four new special effect finishes available on any Nevamar solid color with a five sheet minimum and four weeks lead time. Recommended for vertical use only. Available in 48" x 120" sheets only, 0.039" nominal thickness. This finish does not have armored protection.

Paparazzi! Finish	Product Code	Description
Flash	FL 952	Confetti dazzle and spectrum light from every angle
Formations	FA 953	The refractive look of an instant freeze
Glitter Rock	GK 950	A constant motion of color and light sparkles
Rock Stars	RS 951	Dimensional stars appear to jump from the surface

Static Dissipative Laminates

The unique characteristics of Nevamar Static Dissipative Laminate™ makes it ideally suited for a variety of electronically sensitive applications. The new enhanced product (patent pending) meets or surpasses all standards for electrical properties even at low humidity levels. The product also practically eliminates surface shedding to provide a tough, durable work surface that outlasts competitive materials.

Nevamar's exclusive Armored Protection™ Surface reduces surface shedding to one-tenth that of conventional laminates and provides long-term resistance to surface abrasion and extends the life of the laminate by maintaining its surface texture.

Static Dissipative Laminates are designed for permanent lamination to work station furniture surfaces and are individually certified and labeled to meet the specific electrical property requirements.

Static Dissipative laminates available in HGP (HF-4) sizes 60" x 144", 60" x 120", 48" x 144", 48" x 120", 36" x 144" and 36" x 120". Thickness on all items is 0.038". 30" width available, cut at no charge, order in multiples of two. Available in 96" length with 25 sheet minimum. All sizes are nominal.
