

Wall Surfacing Laminate - FRL

Product quality, an outstanding range of Nevamar colors and patterns, a Class A fire rating and versatility in almost any environment makes **FRL®** (fiber reinforced laminate) the **wall surfacing solution** for your most challenging installations. Typical locations include hospitals, schools, fast-food restaurants, department stores and high density public areas in airports and mass transit facilities.

Supermarkets and grocery store walls and displays are attacked daily by shopping carts, hand trucks and constant cleaning by maintenance staff. From the dairy to the produce aisle FRL stands up in ways that other materials simply can't.

Restaurants know the importance of good food and good surroundings. When applied to the walls of dining and food service areas, FRL combines the ease of maintenance with a look of quality that keeps customers coming back for more.

Trains and Buses will use FRL wall products for their versatility, safety and ease of maintenance. All FRL products are Class A fire rated for safety. Rugged, easy-to-clean FRL easily withstands the effects of wayward luggage and harried commuters.

Airports and mass-transit facilities serve millions of people 24 hours a day, 365 days a year. Maintenance and cleaning need to be done quickly and efficiently. In these locations, FRL wall surfaces easily withstand the rigors of the environment.

Department stores can tailor FRL for their fitting room partitions, product display walls and a variety of other in-store uses. The product's choice of colors and patterns fit perfectly with the latest styles and its durability will never go out of fashion.

Hospitals are filled with skilled people and leading-edge technology. The high-performance features of the FRL wall product is a perfect fit in this environment. Durable, stain-resistant, and easy-to-clean, it lets hospital staff focus on patients, not maintenance.

Schools and universities will discover that FRL fits perfectly with the active lives of their students. In elementary classrooms it easily deflects sticky hands and crayons. On the walls of university dormitories, dining halls, laboratories and athletic facilities FRL earns an A+ for versatility.

Hotels want their guests to feel at ease whether they're traveling for vacation or business. The walls of the lobbies, rooms, food facilities and fitness centers must be clean, bright and inviting. Here, the unique features of FRL perform with a style that makes everyone feel at home.

Features

- Class A flame and smoke rating

Nevamar FRL is available in over 250 colors and patterns, in all Nevamar sizes only, 0.088" nominal thickness. FRL colors can be specified in four textures: Suede, Soft Leather*, Ashwood* and Crystal* (*an additional charge applies to these items). Five piece minimum order, five panels, same size and color/pattern. Digital and screen print pieces are on a case by case basis.

How To Specify (example):

Color Name:	Charcoal Matrix
Color Reference Number:	NA111
Texture:	Suede
Size:	36" x 96", 36" x 120", or 36" x 144" 48" x 96", 48" x 120", or 48" x 144" 60" x 96", 60" x 120", or 60" x 144"

Installation

Successful installations are assured with aesthetic seam treatments. Multiple options are readily available. The 0.088" thickness panels are applied directly over existing substrates, and will bridge any minor substrate irregularities with no need to fill seams or screw holes, etc. It is installed in the same manner as FRP panels.

IMPORTANT: Only use Henkel PL premium polyurethane construction adhesive #FRLADHPLPRE. Use of any other adhesive will void FRL's warranty. The features of this adhesive are a very low VOC content, water-proof, low odor, high strength, moisture cured and contains no chlorinated solvents. Available in 5 gallon pails, 50-60 square feet per gallon coverage.
