

Stains & Toners

WoodSong II Wiping Stains

Fast drying spray and wipe wood stains that can be recoated with lacquers or other industrial wood finishes. This fast dry formula (30-60 minutes) applies by spraying and wiping the stain directly on the wood to be finished. Stains can also be tinted to match Minwax® colors. Stain base available in spray only base.

WoodSong II Microton Spray Dye Stains

Woodsong Microton Toners were developed to act as the first step in staining light colored woods (oak, pine, birch etc.) to a darker color such as mahogany. When used as a first stain coat, this spray-only toner uniforms the tone of the wood's color, making an even base for the application of Woodsong II wiping stains. They may also be used to tint stains and topcoats.

The new Woodsong Microton Toners are compatible with all stain bases. Produced with the most lightfast dyes, they are fast drying and can be used to enhance the texture and the grain of wood. Even multicoats of Microton Toners will not obscure the grain of fine woods. The solvent system for these dyes is acetone, which makes them VOC and HAPs free.

WoodSong II Traditional Glaze

WoodSong II Traditional Glaze is one of a new line of specialty products formulated for specific decorating needs and creative ideas. Adds depth to 3-dimensional surfaces, imitates aging, and produces decorative patterns on interior wood surfaces. Available in over 300 colors. Sprays or wipes directly onto surface with a 30-60 minute drying time. Can be recoated with lacquers or other industrial wood finishes.

Amazing Glaze™

Amazing Glaze™ finish is a fast drying product in the specialty finishes line. Designed to create a beautiful 3-D look that provides depth and rich color, Amazing Glaze can be wiped off in as quickly as one minute after application. The timesaving and HAPs free formula does not require a vinyl sealer, which also saves money by keeping labor costs down. Combinations are limitless, as Amazing Glaze allows finishers to vary the undercoater color, glaze color and shading lacquer. Wipes off within minutes of application and dries fast. No vinyl sandwich coats means lower labor costs. Beautiful effects and unlimited glaze colors. Cannot be used with Magnalac.
