BHK Flooring Accessories

The BHK Flooring product line includes color matched trim and molding products to complement and finish the installation. Installation kit includes buffer block, crowbar and spacer blocks.

BHK Maintenance Accessories

Routine vacuuming will remove surface dust and dirt. For additional cleaning, BHK recommends its floor cleaner kit. The kit includes a specially designed mop, a washable terry cloth mop head cover, floor maintenance cleaner and instructions for the care of your floor. The cleaning product is environmentally friendly, leaves no dulling residue and removes spots, rubber heel marks and sticky spills. It's easy to use - just follow the simple instructions and your floor will look like new again in no time.

Please call an LDS&S representative for pricing and availability of BHK flooring accessories.
