

### Pir-o-et Polymer Adjustable Full-Round Lazy Susans

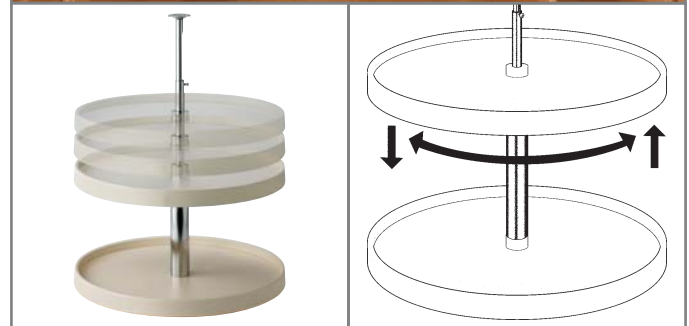

#### Pir-o-et™ Polymer Adjustable Full-Round Lazy Susans

We're downright proud of the performance of the "Piroet," our newest lazy susan by Real Solutions For Real Life™. This susan redefines height adjustability: simply spin the top shelf clockwise to lower it, or counter-clockwise to raise it. And there's no need to unload the shelf to make the adjustment. Piroet - another stellar performance in kitchen storage and organization products by Knap & Vogt.

A simple push of the engagement pin locks in the adjustable feature, chrome tubing attractively conceals the height-adjustable mechanism, and it has five different height positions. Exceeds ANSI/BHMA Grade 1 performance requirements. Includes two polymer full-round lazy susan shelves, post, installation template and hardware. Top/bottom mount, for post height ranges 25-1/2" to 31-1/2". Patent pending. Also available in bisque.

Product #	Description	Post Height Range	Shelf Dia. D
PFADJ18ST-W	P. Adj. Round Lazy Susan White	25-1/2" to 31-1/2"	18"
PFADJ20ST-W	P. Adj. Round Lazy Susan White	25-1/2" to 31-1/2"	20"

### Polymer Full-Round Lazy Susans

#### Polymer Full-Round Lazy Susans

We've upgraded an old favorite into something brand new. This susan features a new, easy-to-clean texture, with chrome telescoping post for easy pole height adjustment, a chrome "beauty ring", and a universal metal mounting plate for top and bottom attachment to reduce installation time. It also has a one inch rim shelf height, independent shelf rotation and easy-to-pop-in bearing hubs for full round and kidney styles (automatically centers the kidney shelves). Exceeds ANSI/BHMA Grade 1 performance requirements.

Includes two polymer full-round lazy susan shelves, post, installation template and hardware. Top/bottom mount, for post height ranges 25-1/2" to 31-1/2". PFN18S3T and PFN20S3T include three polymer full-round lazy susan shelves, post, installation template and hardware. Top/bottom mount, for post height ranges 35-1/2" to 40-1/4". Also available in bisque.

### Polymer Half-Moon Lazy Susans

#### Polymer Half-Moon Glide/Glide (G/G) Lazy Susans

This susan is designed for use in base blind corner cabinets. It features a textured surface, with zinc-plated 1" diameter post. It also has an extra deep 1-1/2" rim shelf height and independent shelf glide motion. The gliding shelves extend 10" on precision ball bearing slides, and operates in both right- and left-handed applications. Exceeds ANSI/BHMA Grade 1 performance requirements.

Includes two polymer half-moon lazy susan shelves, post, installation template and hardware. For 17" post height range. Also available in bisque.
